Call for Abstracts

Update (Oct. 1 2016): **The call for abstracts is closed.**

Present your research!

All researchers are strongly encouraged to submit an abstract. The abstracts are published online a few days after the submission (see [HERE](#) ^[1]). By default, the abstract is for a poster presentation (**A0, in portait format**). If your abstract is selected by the Programme Committee as one of the talks of the conference main meeting, you will be informed by the organisers at the beginning of October.

To submit an abstract, fill-in the online form below as early as possible, and no later than **September 30, 2016**.
